

Collect Coppers for Charity

The Mayor of New Milton has announced an initiative to help swell the funds he is raising for his nominated Charity - **The Ashley Family Hub**.

Raising money for charity is never an easy activity, *but*

Most people have a stack of pennies and two penny pieces they take out of their pocket or purse at night and just put them in the back of a drawer until the next time they have a big tidy!

I would like everyone in the New Milton Parish, and wider afield if they want, to collect their coppers (and those pesky little five pence pieces!) and get them to the Town Hall to donate to this year's Mayor's Charity.

The Town Mayor commits to counting, bagging and banking all the money raised and using it for the Ashley Family Hub. <https://www.ashleyfamilyhub.co.uk/>

Tell your friends, work colleagues, neighbours, family, in fact everyone you know and try to get them involved.

The A&T has a circulation of approximately **16,000**. There are approximately **21,000** New Milton residents registered to vote and there approximately **3,000** members of the New Milton Residents Association.

Just think what we **ALL** could do *if...*

...Every registered voter

...Every member of the NMRA talked to five other people

...Every reader of the A&T

...collected just £1 of copper over the next twelve months for the Mayor's Charity, **The Ashley Family Hub**.

Many hands make light work. Take your 'coppers' to the **Town Hall at 2 Ashley Road, New Milton, BH25 6AS**.

If we all do a little collectively, we can achieve a lot!
